EXPERIENCE

COMMUNICATOR SECURITY ENGINEER

SEPTEMBER 2018 - PRESENT | BOSTON, MA

Recovered a hacked WordPress site for a graduate publication. Inspected file integrity and removed all malware. Developed and installed a scalable security plan to prevent future hacks. Responsible for conducting regular vulnerability scanning and identifying system and network vulnerabilities.

COGO LABS UX/UI DESIGNER

JUNE - AUGUST 2018 | BOSTON, MA

Launched a data-driven internet startup in 10 weeks alongside a team of analysts and engineers as a technical designer. Established clean, scalable design patterns and code practices using a common vocabulary for design and engineering.

Designed and implemented A/B tests and user testing to guide design decisions. Developed front end using React.js and styled components. Introduced Agile methods with Scrum framework.

AVRIO AI DESIGNER/DEVELOPER

JANUARY - MAY 2018 | BOSTON, MA

Designed and developed the website for Avrio AI, an HR AI startup, on their existing CMS with HTML, CSS, and JavaScript. Devised company style guide to ensure cohesiveness across all channels of product, marketing, and sales.

PROJECTS

CODE FOR GOOD JPMORGAN CHASE & CO.

Digital platform and business strategy to promote sustainability, empowerment, and community for collegiate students involved with the Be Positive Foundation. Utilized HTML/CSS, React.js, MDBootstrap, Django and SQLite.

HEY BARTENDER COGO LABS

1ST PLACE

Location-based happy hour finder in over 120 cities in the U.S. with 12,000 visitors in 10 weeks. Awarded for success in revenue and user interaction metrics.

KONEXIO IDHACK

2ND PLACE

Networking platform to match refugees with professionals, promoting socio-economic integration in Europe. Collaboration with Konexio, a French NGO.

LIT SHEHACKS

2 AWARDS

Networking application for women in technology, featuring a digital business card scanner, in-app messaging, and conference integrations.
